

## IRISH COUNTIES MAY AVOID HOME RULE

Exclusion From Dublin Parliament  
May Be Given on  
Referendum.

### FINAL OFFER TO UNIONISTS

Ulster, However, Wants to Be  
Free for an Indefinite  
Period.

Special Cable Despatch to THE SUN.  
LONDON, March 5.—The Daily News and Leader prints this morning what purports to be the Government's final offer to the Unionists regarding Ulster and home rule. The statement is written by the Parliamentary correspondent of the paper who recently resigned a similar position on the Times because of political reasons after he had won a high reputation for the accuracy of his Parliamentary news.

According to this writer, the much talked of scheme of "home rule within home rule" has been dropped because, among other things, the Unionists made it clear that they would not accept it. The Cabinet has now agreed to go to the furthest limit toward the temporary exclusion of Ulster from the control of the Dublin parliament.

"The proposal," says the correspondent, "will indeed be consistent with the root principle of the home rule bill, but it is conceivable that it may at first be misunderstood by some supporters of the Government although the Nationalists are ready to give it their loyal support." The suggestion, which is said to have been made solely in the interests of peace and a settlement by consent, is this: "Any county in Ireland which makes the demand after the passage of the act, but before the Irish Parliament is summoned, shall have the right to take a vote of the electorate of the county, and if a majority favors exclusion that county shall be excluded for a term of years, probably three."

The correspondent adds that he believes the Unionists are determined not to accept any offer of exclusion which does not come inside their own definition, namely, cutting Ulster out of an indefinite period out of the territory to be under the jurisdiction of the Irish Parliament. Through an oversight the home rule bill was omitted from yesterday's order of the day in the House of Commons and therefore it was not introduced as had been intended. It will be introduced today. The incident is of no significance and it will not affect the procedure which has been arranged. The second reading will be moved on March 5.

The covenant suggested by Lord Roberts against home rule for Ireland without an appeal to the country is being extensively signed. The Unionist newspapers are printing a long list of peers, members of Parliament, army officers, professors and other prominent men who have subscribed to the principle.

### \$50,000 MORE FOR SHACKLETON.

British Government Grants Him  
That Sum for Antarctic Expedition.

Special Cable Despatch to THE SUN.  
LONDON, March 4.—The British Government has granted \$10,000 (\$50,000 more) to the expedition for the expenses of Sir Ernest Shackleton's Antarctic expedition.

The possibility of Sir Ernest Shackleton undertaking a new trip into the Antarctic, it was announced recently, is due to the generosity of an admirer of the explorer whose identity has been kept secret. Rumor had it that the man was Sir James Barrie, the playwright, and it was also said that a prominent American cotton man had supplied the cash. Both rumors were denied. The Royal Geographical Society of England gave \$5,000 toward the fund.

### DANISH KING DEMOCRATIC.

Christian X. Chats With Old Woman  
Who Stops Him on Street.

Special Cable Despatch to THE SUN.  
COPENHAGEN, March 4.—King Christian was stopped as he was entering a new church here today by an old woman who seized his arm and exclaimed: "I must have a talk with you."

Policemen were about to arrest the woman when the King forbade this. He shook hands cordially with the woman and invited her to the palace. She replied: "God bless you. I want you to build more churches."

A moving picture man got the scene on a film and his company has received permission from King Christian to use it.

### WOULD ATTACK LLOYD GEORGE.

M. P. to Propose Resolution of Regret at His Inaccuracies.

Special Cable Despatch to THE SUN.  
LONDON, March 4.—Sir John Randles, a Unionist member of Parliament, has given notice that he will move in the House of Commons on March 10 the following resolution:

"That the House contemplates with regret the repeated inaccuracies of the Chancellor of the Exchequer and his gross and unfounded attacks on individuals."

Mr. Lloyd George has postponed an engagement at Cambridge so that he may be in the House to make a reply.

### MURDERS BOSS, KILLS HIMSELF.

Chief of Pottluff Armament Works  
in St. Petersburg Slain.

ST. PETERSBURG, March 4.—A foreman employed at the shrapnel tube factory of the Pottluff Armament Works today killed Capt. von Stahl, head of the works, and then committed suicide by flinging himself into the machinery. His body was badly mutilated.

The murder and suicide are attributed to the strike which has been on at the Pottluff works for several days. Capt. von Stahl's attitude was greatly resented by the strikers.

### ECUADOR'S PRESIDENT IN FIELD.

Gen. Plaza Leaves Capital to Put  
Down Emmeraldas Rebellion.

WASHINGTON, March 4.—Gen. Plaza, President of Ecuador, has temporarily relinquished his duties in that office in order to take the field against the rebellious, who are in force in the vicinity of Emmeraldas. The president of the Senate, Dr. Alfredo B. Moreno, who, according to the constitution, is vice-president of the republic, has taken his place.

## TWINS, JOINED FACE TO FACE, ARE CUT APART

Madeleine and Suzanne Durand.

### Paris Physicians Perform Delicate Operation on Girl Babies.

Special Cable Despatch to THE SUN.

PARIS, March 4.—Madeleine and Suzanne Durand, who were born in November last, are living separate lives tonight for the first time. These children, who were joined in a face to face position, were separated by a delicate operation this afternoon, which was very successful. The belief of the surgeons that the children will live rests on the fact that the junction of the babies did not involve any important organs.

Madeleine and Suzanne were united by a piece of tough fibrous tissue about four inches thick. An X-ray examination showed that the heart and lungs of each were entirely distinct. Each child has every bodily organ separate from the other. A curious phenomenon, however, was that when one child exhaled the other inhaled.

The operation took no more than fifteen minutes. It was very simple on account of the exceptional nature of the junction.

## PRINCE WILLIAM ON HIS WAY TO ALBANIA

New Ruler Will Have International Escort From Trieste.

Special Cable Despatch to THE SUN.

BERLIN, March 4.—Prince William and Princess Sophie of Albania left today for Albania. They received a cordial farewell from the court officials, many of whom as well as a large number of army officers accompanied them to the railway station. Members of the couple's families went with them as far as Giannina.

The Prince and Princess will go to Trieste by way of Salzburg, and will embark on the yacht Taurus, belonging to the Austrian Admiralty. The yacht will be escorted by an international warship fleet to Durazzo. An Italian warship will join the escort at sea so as to avoid the possibility of an anti-Austrian demonstration at Trieste, which it was feared would result if a warship went to the Austrian port where there is a large Albanian population.

There will be an official reception by the Statthalter at Trieste, the commanders of the warships, the local authorities and the Albanian deputation headed by Essad Pasha.

Meanwhile Albania, according to reports in Athens, is divided and in chaos, the people of Elbasan and Spahia refusing to have anything to do with a Christian Prince. There is fighting every day with Akif Pasha's troops and many have been killed. Communication with Elbasan is interrupted and telegraph communication has been cut. The Albanian gendarmes at Durazzo have mutinied, refusing to take orders from anybody except Essad Pasha. The Mohammedans of Scutari refused to send a delegation to Vienna to welcome the new ruler.

### SAYS FILM WAS PLAGIARISM.

Paul Verrier Wins \$1,000 Verdict Against Movie Company.

Special Cable Despatch to THE SUN.  
PARIS, March 4.—Paul Verrier of the Academie Francaise won a verdict awarding him 5,000 francs (\$1,000) damages today against the Gaumont Cinematograph Company, which plagiarized his play "L'Enigme" to make a moving picture film which it exhibited under the title "Le Mystere" (Which Woman?).

The court ordered the company to destroy the film.

### WOLVES KILL MANY SHEEP.

Hundreds of Armed Italian Peasants Hunt Animals.

ROME, March 4.—Hundreds of armed peasants are hunting the wolves which came down from the Apennines into Abruzzi provinces and in the vicinity of Rome today and killed great numbers of sheep. The wolves were starving and had been driven from the mountains by the heavy snow.

After devouring the sheep the wolves entered the caverns of Mount Soracte, which is about twenty-five miles north of Rome. It was there that the farmers sought the animals. Late reports say they have succeeded in killing many of them.

## GOETHALS NODS AS MITCHEL PROMISES

Mayor Repeats at Carnegie Hall  
Colonel Is Pledged to  
Rule Police Here.

### PLEADS FOR HIS BILLS

Citizens Give Canal Builder Another Medal at Big Gathering in His Honor.

Three thousand men and women in Carnegie Hall last night, who saw Col. George W. Goethals receive the Civic Forum medal of honor for distinguished public service and heard "Field Marshal Lord Culebra," as Admiral Peary dubbed him, eulogized as few men have ever been, had no doubt whatever that the Colonel would take the Police Commissionership if the Legislature passes Mayor Mitchell's bills.

Any suggestion that the Mayor was merely using the name and prestige of Goethals to put through police reforms was obliterated when the Mayor, with Col. Goethals's nodded approval, said flatly: "I have asked Col. Goethals to come here because he has displayed the essential qualities of human nature that must characterize the Police Commissioner if he is to give New York the kind of administration it has waited for so many years. We are the more pleased to honor Col. Goethals tonight because we know that if the Legislature does its duty by the people of New York we are going to secure him."

"If you believe in a man and trust him, give him the power to administer efficiently," declared Col. Goethals, and we trust him. Therefore I am trying to give him the power to make a great office effective."

### "Up to You," Says Mitchell.

"I am not here to make a plea for support, but I say to you that all that stands between what you and I want is the Legislature. It is up to you to impress upon the members who sit in the Legislature that you intend to have Col. Goethals. He can serve the nation by serving this city, by giving the world an example of proper police administration."

If there were persons in the audience who had doubted that the Colonel would take the job they got rid of their doubts the next instant when Col. Goethals bowed, and when the cheering swept like a storm from the auditorium to the high galleries of the hall.

When it came his time to speak the Colonel, looking a little pale and in poor voice, confined himself to thanking the Civic Forum for the medal and the heaped up compliments, and to a few sentences regarding the state of the canal work.

First of all he gave to Theodore Roosevelt the credit for the success of the canal, saying that the ex-President, "disregarding the law which had too deeply impressed him, and in the face of the opposition, concentrating authority in one hand."

### Ready for Use Next July.

"The canal," said Col. Goethals, "is practically completed. The locks are practically ready for use. The water in the lake is at full level and the danger of a scarcity of water is forever over. The only obstacle is our old friend the hurricane, which we are not going to conquer, and shipping will be able to pass through the canal by July 1. On April 1 we shall begin to select an operating and maintenance force, and it would be well perhaps if we had six months to accustom this force to its duties."

The Colonel, holding in his hands the beautiful gold medal designed by Paul Manasse, resumed his seat, while applause thundered for five minutes.

It was disclosed last night that the Colonel can be very humorous, and that he was not for bluster. His compliments were roses Goethals would have been smothered before the speechmaking was half over.

John H. Finley, presiding, reviewed the Colonel's achievements and gave way to poet Percy MacKaye, who read his poem, "Goethals," beginning:

A man went down to Panama,  
When the world was a new land,  
To sit the sliding mountains  
And lift the eternal tide.  
A man stood up in Panama,  
And the mountains stood aside.

Mayor Mitchell's compliments and reassertion of Goethals's intention to head the police if the Legislature passes the bills were followed by Collector Mulvaney's warm praise of the canal builder.

It is a wonder," said Mr. Mulvaney, "that the New York is most anxious to win Col. Goethals from the salubrious climate of Panama to the more vigorous atmosphere of our cosmopolitan city."

Marcus M. Marks, president of Manhattan's Chamber of Commerce, and a classmate of the Colonel, along with Oscar S. Straus, Henry C. Lewis, Robert Underwood Johnson, Dr. George F. Kunz, Dr. Henry M. Leipsig, William C. Brewster and John R. Gould, all of whom were on the stage, spoke briefly. Dr. Lyman Abbott added his quota to the praises.

### Bishop Applauds Mayor's Choice.

Bishop David H. Greer said that after hearing the Mayor as regards the Police Commissionership and Col. Goethals that he realized the Mayor knew what he was talking about. Rear Admiral Robert E. Peary, and Secretary of War Henry L. Stimson closed the speechmaking.

Dr. Finley read an address written by Joseph H. Choate in which Mr. Choate said of the Colonel: "He is a man of the highest caliber, a man of the highest caliber, a man of the highest caliber."

"In one respect, the enterprise has been a most brilliant example for all public works. You have succeeded in keeping it absolutely out of political party and party and in the hands of a man of the highest caliber, a man of the highest caliber, a man of the highest caliber."

Letters were read from Oscar W. Underwood, Speaker of the House, Secretary Redfield, Secretary Lane, ex-President Taft and others.

### To Make Goethals Major-General.

WASHINGTON, March 4.—A resolution to center on Col. George W. Goethals the thanks of Congress and to authorize the President to appoint him a Major-General in the army and creating an additional number of that grade to meet the situation thus created, was offered in the Senate today by Senator Lodge and referred to the Committee on Military Affairs.

### URGE BRITAIN TO EXHIBIT.

Memorial From Leading Politicians  
Asks Participation at Franco.

Special Cable Despatches to THE SUN.  
LONDON, March 4.—A memorial signed by more than half the members of the House of Commons was presented today to Premier Asquith urging the Government to reconsider the question of official participation in the Panama-Pacific exposition next year.

It is urged that many manufacturers desire to send samples of their products and official abstention is likely to prejudice British trade and Anglo-American relations. The signers of the memorial include practically all the Irish Nationalist and Labor members, more than half the Unionists and more than one-third of the Liberals.

Some of the prominent Unionists, like Bonar Law and Arthur Balfour, approve of the memorial, although they did not sign it.

PARIS, March 4.—The French Senate has shelved the 2,000,000 francs appropriation (\$400,000) authorized by the Chamber of Deputies for participation in the San Francisco Panama-Pacific exposition on adverse representations made by the Limoges Chamber of Commerce.

## CHURCHILL OPPOSES TRANSOCEAN FLIGHT

Talk of Crossing Atlantic by  
Aerial Route Premature.

He Thinks.

Special Cable Despatch to THE SUN.

LONDON, March 4.—Winston Churchill, First Lord of the Admiralty, whose enthusiasm for aviation has often been demonstrated, does not share the belief of those who regard the plan for a flight across the Atlantic as feasible. In the course of a speech at a dinner of the Aero Club this evening Mr. Churchill said:

"We are talking to-day of flying across the Atlantic in a more hopeful tone than the people of four years ago talked of flying across the Channel. I am bound to say I think that an attempt to fly across the Atlantic in present circumstances is premature. An undue element of risk appears to be attached to any such enterprise, but the progress in the science of aviation has been enormous and it cannot be doubted that in the near future we may see heavy aeroplanes and great airships making voyages as a matter of common experience which nowadays would be regarded as extraordinary accomplishments."

The First Lord contended that Great Britain should have the foremost place in aviation, but although he recognized the brilliant achievements of civilians, he added that nothing but the supreme stimulus of considerations of war and generous contributions on the part of taxpayers can carry her to that place.

"The art of science of flying," he went on, "affords a fairer field for prowess than many games which enter into the programme for international contests. The risks of flying, although they cannot be denied, have been very exaggerated. They are not unduly excessive."

More lives have been lost in submarine accidents in the aviation service since Mr. Churchill has been in the Admiralty.

### MILITANTS START MERRY ROW.

Chairs Fly at Labor Meeting—  
Women Thrown Into Street.

Special Cable Despatch to THE SUN.  
LONDON, March 4.—A meeting of the Labor party at which James R. MacDonald, M. P., was the chief speaker was held up for an hour this evening by the tactics of suffragettes and their male allies. There was wild disorder and several fights resulted. Scores of persons were thrown into the street. Chairs were used as missiles and many windows were smashed.

As soon as one woman was ejected another started to disturb the meeting. The suffragettes entrenched themselves behind the press table and the reporters had a rough time. Several stewardesses took part in the forcible ejection of the suffragettes and the latter were not handled with kid gloves. Scores of them are nursing battered heads and shins.

### GOBLET AT \$160 AN OUNCE.

Old Silver Piece Dated 1853 Brings  
High Price at Christie's.

Special Cable Despatch to THE SUN.  
LONDON, March 4.—A Commonwealth silver goblet, dated 1853, richly decorated, was sold at Christie's to-day at a price of 610 shillings (\$160) an ounce.

### POINCARÉ GUEST OF JAPANESE.

French President Entertained at the  
Mikado's Embassy.

Special Cable Despatch to THE SUN.  
PARIS, March 4.—President Poincaré was the guest at dinner of the Japanese Ambassador at the embassy this evening. A reception followed.

### President of American Hospital.

Special Cable Despatch to THE SUN.  
PARIS, March 4.—Herman Hayes was elected to-day president of the American Hospital in Paris and also a member of the board of trustees, a position held by his father.

### NO DOMINION STEEL DIVIDEND.

Depression of General Trade Conditions Given as Cause.

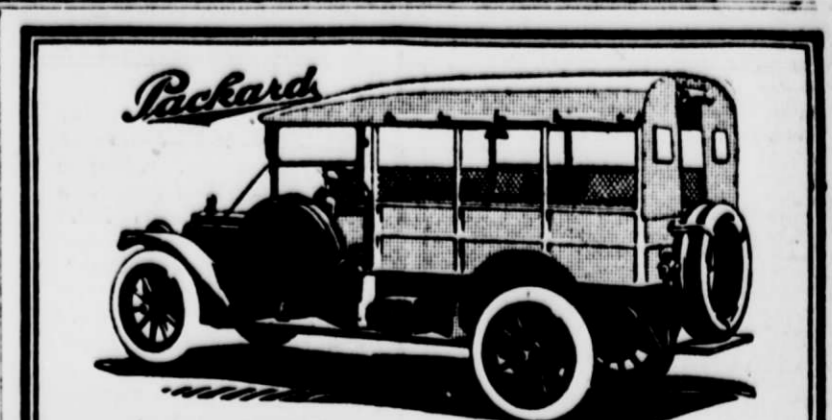

MONTREAL, March 4.—For some time past one of the unsettled features of the local stock market has been the uncertainty of the Dominion Steel Corporation's dividend. The directors met this afternoon to decide and the Street waited. The official announcement handed out follows:

"In view of the depression in general trade conditions and in the steel trade in particular, it is considered advisable to confine the dividend on the common stock to the 3 per cent. already paid and not to pay the usual dividend on the first of April."

There was no intimation as to when the dividend would be resumed. The Street and the directors are of the opinion that the dividend be allowed to accumulate.

### Jury Gives Boy \$10,000 Damages.

Charles Black, 17 years old, of Jersey City, who received serious injuries to his head and feet when a wagon he was driving was struck by a New Jersey Central locomotive in January 1912, won a verdict for \$10,000 damages before Circuit Court Judge Speer yesterday. He sued for \$25,000. His father, who was injured in the same accident, has a suit for \$10,000 damages pending.

## THE PACKARD CAMP CAR

This car will be exhibited at the Sportsman's Show, in Grand Central Palace, New York, March 5 to 14. A camping body of Packard design and manufacture is mounted on a Packard "48" chassis. The vehicle is designed to carry camp outfit and provisions. Properly equipped, it makes the tourist independent of hotels and enables him to penetrate, with safety and comfort, regions otherwise inaccessible.

A limited number of orders can be accepted by the Packard Motor Car Company of New York, Broadway and Sixty-first Street.

Acting on the report of Lieut.-Col. Samuel R. Barber, acting chief of staff of the army, the Aero Club has awarded a new American distance and duration record for a flight with passenger to Lieut. T. F. Dodd, Coast Artillery Corps, Lieut. Douglas from San Diego to four miles north of Burbank, Cal., and return on February 14. The distance was 244.18 miles and the time four hours and forty-three minutes. The flight was made in a Burgess biplane tractor, with a 70-horsepower motor.

Three rich Japanese have given \$100,000 each to advance civil aviation in Japan, according to a communication received from Jacques Mortane, foreign correspondent of Flying. A French company has been engaged to build aeroplanes in that country.

Lieut. John Cyril Porte, the English officer who will be one of the pilots of the Rodman Wanamaker transatlantic flier favors making the trip in June instead of September, the month suggested by Glenn H. Curtiss, the American flier. He is afraid that one of the many overcast fliers now building, or at least contemplated, will start before September, and he says they would have one chance in a hundred of getting across. He does not want to leave that one chance open.

Lieut. Porte is now at Hammondsport, where the motor is being tested at the Curtiss factory. The tests are proving satisfactory, according to reports.

### MAY TRY POLISH COUNT AGAIN.
